

24-core lc fiber optic distribution box

Overview

This outdoor 24 ports fiber distribution box provides a protected termination point for feeder cable to connect with drop cable in FTTH and FTTx communication networks. It integrates optical fibre splicing, splitting, distribution, storage and cable connection in the wall mounting. 24 core SC / 48 core LC fiber distribution box for the last mile installation The Fiber Optic Distribution Box features a convenient flip-up design, facilitating effortless fiber management during installation. The individually installed splicing trays can be easily repositioned as necessary. It can loaded with maximum 2 sets of tube splitter according to your requirements. The ABS high-grade plastic material of ODB. Ideal for FTTH, FTTB, and FTTC applications, ensuring seamless fiber optic distribution in various network setups. IP55-rated enclosure supports reliable performance in diverse environments, from urban to rural deployments.
