

8-channel intelligent remote control PDU

Overview

The unit features 1 x IEC C14 inlet for power, and 8 x variable voltage output outlets for controlled supply to low-power consumption devices. The PDU supports TCP/IP and RS-232 control, and a redundant TCP/IP port as a back-up. The PE8208 eco PDU is intelligent PDU s that contains 8 AC outlets and is available in various IEC or NEMA socket configurations. It provides secure, centralized, intelligent, power management (power on, off, cycle) of data center IT equipment (servers, storage systems, KVM switches, network. The PWR8IEC is an outlet-level metered and switched smart PDU. Front panel buttons for. The Intellinet Network Solutions 19" Intelligent 8 Port PDU provides your system-critical devices with steady power, monitors current-voltage levels and keeps track of environmental temperature and humidity levels. It fits into a 19" cabinet (1U). Each output can be switched on/off individually. The green DI (Digital Input).
