

816 Bridge Wire

Overview

Stranded or solid tinned plated copper. For dies subjected to high heat and stress when a machina-ble d mete re without notice. Statements on composition and application are just for the appli r's information. Statements on mechanical properties always refer to. A bridgewire or bridge wire, also known as a hot bridge wire (HBW), is a relatively thin resistance wire used to set off a pyrotechnic composition serving as pyrotechnic initiator. The 866A is way oversized for most audio projects so the 816 is a good alternative if you must have that magic blue mercury glow. The 816 has the same pinout as the 866A. An UX4 base, of which only two pins. Product Construction 16 AWG Hook Up Wire Conductor: 16 AWG Stranded Tinned Copper wire conductor per ASTM B-33 Insulation: Color coded PVC Temperature -40° to +80°C Voltage Rating: 300 volts Applications: Point to point wiring Internal wiring of meters, panels, electrical and electronic equipment. One premium product at a time. We have exactly what you need to get the job done right.
