

ABB High Voltage Distribution Box

Overview

ABB Kabeldon high voltage cable boxes and cable cabinets are suitable for single and multi-core XLPE (11kV - 24kV) cable terminating, cable jointing and branching high voltage cables. Set of low voltage electric insulating switchboards and industrial boxes. No matter how harsh the environment is, there is always a proper enclosure for your needs. Thanks to protection ratings and high quality cable (from 65 x 65 mm up to 361 x 254 mm) plus 3 different cover heights are available. ABB's enclosures offer a first-class quality assortment of enclosures and accessories wherever electrical energy needs to be distributed, metered and controlled from the main distribution boards via the sub distribution boards to the smallest consumer unit for final distribution. Their top offerings include circuit breakers, switchgear, panelboards, motor control centers, and energy management systems designed to improve safety. ABB, a global leader in electrification products, offers a diverse range of distribution boxes engineered for reliability, safety, scalability, and smart integration. Engineered for medium-voltage.
