

Adapter Fiber Optic Interface

Overview

A fiber-optic adapter — sometimes called a coupler or bulkhead coupler — is a passive mechanical interface that mates and aligns two terminated optical fibers (i., two fiber connectors) such that light can reliably pass from one to the other with minimal insertion loss and maximum. FS offers full range of fibre optic adapters/couplers with good repeatability and changeability for mating two ends of a fibre optic cable with high precision. Most commonly, they provide for interconnection of cables having similar connectors in order to facilitate passage through an enclosure wall or to extend cable length. Fiber. Find a huge range of Fibre Optic Adapters at Farnell® Germany. We stock a large selection of Fibre Optic Adapters, including new and most popular products from the world's top manufacturers including: L-com, Cliff Electronic Components, Molex / Partner Stock, Molex & Tuk More Pricing.
