

Cameroon Fiber Optic Cable Project

Overview

Cameroon's incumbent telecom operator, Camtel, has announced the deployment of an additional 3,500 km of fiber optic cable starting in 2024. Speaking about the project last October 17 during the Yaoundé Digital Week, MD Judith Yah Sunday said it primarily targets rural areas. Government has officially handed over to Cameroon Telecommunications, CAMTEL, a 78-strand fibre optic cable deployed overhead in the Southern Interconnected Grid, SIG, along the Yaounde-Boumnyebel-Edea-Kribi-Douala-Limbe-Nkongsamba-Bafoussam-Bamenda segment. Implementing this. Cameroon is set to bolster its digital infrastructure through a significant financing agreement following a presidential decree signed on March 6 by President Paul Biya. This decree authorises the Minister of Economy, Planning and Regional Development to finalise a loan arrangement with the. It is within this framework that the installation of optical fibre throughout the national territory is carried out. This satisfaction is all greater because we can rejoice that Cameroon has so far covered nearly 6,000 kilometres of activated optical fibre cables, covering ten regional capitals. March 9, 2026
Comments Off on Cameroon Approves CFA 108 Billion Loan from China Exim Bank for Fiber Optic Expansion YAOUNDÉ, Cameroon — CameroonOnline. It aims to complement the 12,000.
