

Common Tray Sizes for Network Cabinets

Overview

In the UK, standard widths range from a slim 50mm up to a massive 900mm, with depths typically between 25mm and 150mm. Nailing these dimensions from the very beginning is the difference between a network that just works and one that's a constant source of frustration and data. Common Standard Widths: The listed width is the nominal inside usable width, not the outside edge-to-edge dimension. Height (often called side rail height or tray.
