

Core Switch Huawei 7500

Overview

The Huawei OptiX OSN 7500 intelligent optical core switching (OCS) unit can be deployed in either packet (MPLS/MPLS-TP) or TDM modes. With large cross-connect capabilities, the OptiX OSN 7500 delivers 360 Gbit/s higher order cross-connections and 40 Gbit/s lower order. Huawei campus switches are ideal for building future-proof campus networks with simplified management, high reliability, and service intelligence, across industries such as enterprises, governments, education, finance, and manufacturing. It is an optical core switching (OCS) device applied to service scheduling nodes at the backbone layer of MANs to schedule and transmit. Home Products and Solutions InterConnect Switches Products Campus Network Switches Aggregation Switch H3C S7500X Series Switches H3C S7500X Enterprise Core Switch Series The H3C S7500X series switch is designed for the next-generation enterprise core networks. It has large business switching capacity, the highest order intersection is 240Gbit/s, and the lower is. OSN 7500 is a new-generation optical transmission system developed by Huawei based on the current applications and development trend of MANs. With large cross-connect capabilities.
