

Core Switch S10506

Overview

The Dahua S10506 is a next-generation modular core switch designed to ensure high performance, advanced security, and maximum reliability in enterprise networks. Compatible with 40GE Ethernet standards, it supports virtualization technologies, IPv4/IPv6 management, and MACsec. The H3C S10500 switch series is designed for the data center cloud networks, next-generation enterprise core networks, and MAN convergence. It uses H3C's proprietary operating system Comware V5 and V7 and provides the following features: Convergence of MPLS, VPN, and IPv6. The above features can. Bitte verwenden Sie eine der folgenden Optionen, um Ihr gewünschtes Produkt zu finden. Target customers include network. We can provide sales of a large number of new or used transmission equipment, servers, communication power systems, routers, base station equipment, switches, SFPs, storage devices, and other communication products. We have extensive knowledge and experience in product operation and maintenance. We. Page 9 For the S10506 and S10510 switches, you can use the cage nut installation template to determine the cage nut installation holes on the rack posts.
