

Data Center Cabinet Network Equipment System

Overview

Data center cabinets are enclosed structures designed to house and organize servers and other network equipment. Our vast selection of cabinets, thermal management, racks, enclosures for data centers, telecommunications equipment rooms, and enterprise cabling applications help optimize space, reduce energy consumption, and enhance network reliability. Generate Instant Quote -. Our DC Series is the Data Center Standard for high-capacity, high-weight load rated, feature rich cabinets. These deployable, seismic and UL-rated cabinets are fully welded, pre-assembled, and come standard with features such as recessed PDU Cavities, and are configurable with or without doors. Enconnex designs and manufactures a comprehensive selection of racks, cabinets, enclosures, and accessories. Our flagship data center cabinet, InfiniRack, is nearly endlessly configurable, ensuring you get the perfect solution for your unique environment.
