

# Dedicated power strip for construction site distribution boxes

## Overview

Explore construction-grade power strips featuring metal housing, circuit breakers, and joule protection. Perfect for job sites and demanding environments. BOSECKER construction site power distributors are designed and manufactured in accordance with the manufacturer standard IEC 61439 and user standard IEC 60364. BLOCK Series distribution assemblies are made of thermoplastic material. Our power distributors offer many different options for reliably distributing power on your construction site: ELKRAFT® - rubber distributors, construction site power distribution cabinets, ELKRAFT® - MINI distributors, wall distributors, socket strips, power distributors. The robust sheet steel housing has been developed especially for use outdoors and is extremely stable thanks to high material thicknesses. \*\*Power Distribution Units (PDUs)\*\*\*, commonly referred to as PDU strips, are integral to modern construction sites.
