

Dimensions of a Level 3 Distribution Box

Length Width Height

Overview

It describes HA, HK, and LGD series boxes with dimensions ranging from 100-415mm in length, 105-323mm in width, and 75-140mm in height. Dimensions included are length, width. Electrical enclosure sizes are not universal, but most manufacturers follow common size families. This guide explains typical wall-mount and floor-standing dimensions, how to read catalog sizes, and how to choose the right enclosure size for your layout. They help keep everything inside safe and working properly. Picking the right size matters. These Distribution Cabinets are to be outdoor type and to be fabricated out of 2 mm GI sheet steel. The body of the boxes shall have sufficient reinforcement with suitable size of channels keeping a provision for fixing and conforming to general. Choosing the correct electrical box dimensions is essential for safe wiring, code compliance, and long-term reliability. Whether you are installing outlets, switches, lighting fixtures, or junction connections, box size directly affects wire fill capacity, device fit, and installation quality.
