

# Dual-color dimming touch control module

## Overview

The dual color LED controller set is designed with a touch color wheel, which offers fast and accurate color temperature adjustment by touching the wheel. Touch Dimmer Switch, Touch Sensor Dimmer, Touch Lamp Control Module, Replacement Sensor 36W Dual Color Temperature LED Touch Sensing Dimming Control Switch [DUAL COLOR TEMPERATURE CONTROL] Enjoy lighting options with the ability to switch between two distinct color light strips, perfect for. Seamless touch sensor technology: the touch lamp control module has advanced sensor control and allows effortless and intuitive operation. Simply touch the switch to adjust the brightness or turn the lamp on/off and provide a modern and user-friendly experience. Versatile application: regardless of. It is a DC 5V 5W Dual-Color LED Driver 0-100% Stepless Dimmer Module Touch Control LED Lamp Board. Smooth dimming of each white with dimming range from. Sunricher offers a wide range of DALI lighting control, DALI master, DALI dimmable driver, DALI sensor, DALI coupler, DALI-2 wall panel, DALI dimmer, DALI switch for fluorescent and compact fluorescent lamps, tungsten-halogen lamps, high pressure discharge lamps and LED lighting. With DALI lighting. Type-C Interface: Enables easy and universal charging, compatible with a wide range of 5V DC power sources. 7-5V Output Voltage: Provides flexibility in.
