

FT-44 Fiber Optic Sensor

Overview

Ultra-small diameter fibers with a compact head ensure precision centering accuracy to stably detect minute parts. Sensing of minute objects can be performed by combining the fiber and spot lens. Thru-beam type. New: A brand-new, unused, unopened, undamaged item in its original packaging (where packaging is. Packaging should be the same as what is found in a retail store, unless the item was. For the 2025 holiday season, eligible items purchased between November 1 and December 31, 2025 can be returned until January 31, 2026. See more product details Would you like to tell us about a lower price?

Found a lower price?

Let us know. Although we can't match every price reported, we'll use. Panasonic Industrial Automation FT Thru-Beam Type Fiber Optic Sensors feature tough, high-quality fiber and a reduced risk of breaking and bending during installation in a thru-beam package type. The stainless steel fittings used for fiber heads conform to RoHS while providing improved mounting. We are an independent distributor of electronic components and industrial control parts. If you don't find the part you are looking for, feel free to contact us at any time so we can help you.
