

Fiber Optic Gigabit Adapter

Overview

The adapter provides a reliable Gigabit connection via USB-C and uses a modular SFP port that supports both multimode and single-mode transceivers. This makes it ideal for environments with high range requirements, interference-prone installations or professional network structures. The MC200CM is a media converter designed to convert 1000BASE-SX fiber to 1000Base-T copper media or vice versa. com for performance connectivity accessories. 1 to Fiber Optic Transceiver Gigabit Ethernet Adapter, Singlemode, 1310 nm, LC, Up to 5 km This Model has been retired and has not been replaced. An Owner's Manual and other information for the U436-SMF-1G-LC is available on the model support page USB-C to Gigabit Network. This USB 3.0 (Type-A) port on your laptop or tablet to provide a secure fiber network connection. Perfect for modern devices: Works with notebooks, PCs and embedded systems with USB-C - no separate network card required. Energy-saving and efficient: Thanks to IEEE802.
