

Fiber optic pigtail combo

Overview

Fiber Optic Bundle Pigtails comprises a set of 12 optical pigtails. For ease of identification, these pigtails will come in 12 different colours and are used to be optically spliced with the optical fibers from the optical cable to enable network connection. FS fiber optic pigtails offer a fast way to make fiber optic communication devices in the field by fiber splicing, fully manufactured and tested by industrial standards. Get the wrong connector type, the wrong polish, or skip proper fusion splicing technique—and you're looking at elevated signal loss, increased back reflection, and a. Fiber pigtails are simple in appearance, yet essential in function. By combining factory-installed connectors with spliced bare fiber, pigtails ensure that network installers can create. Leviton fiber optic pigtail kits are a good solution for mechanical or fusion splicing applications. Connector Types: Flexible solutions with SC/PC, SC/APC, LC/PC, LC/APC, and other connector options.
