

# Fiji telecommunications tower blown down by wind

## Overview

The tower used to stand on Mago Island, which is owned by actor and film director Mel Gibson. Severe Tropical Cyclone Winston was a powerful, long-lived, and destructive tropical cyclone that became the most intense in the Southern Hemisphere on record, as well as the strongest to make landfall on record, and the most intense and longest lasting tropical cyclone worldwide in 2016. Service provided by We advocate for. The official source of reliable "first-level" information on tropical cyclones occurring in the South-West Pacific Ocean. Active weather warnings are currently in effect. RSMC-NADI-Tropical. Houses have been destroyed and blown away, with farms ruined as Tropical Cyclone Rae passed through Tuvuca Village which is located offshore from the island of Vanuabalavu with torrential rain and winds causing damage this morning. This is occurring as the wind has intensified in Malolo, Mamanuca, and Yasawa Groups.
