

How often is the warranty period for network security equipment renewed

Overview

Cisco warranties are fixed-term and do not typically renew. Once expired, free hardware replacement for manufacturing defects is no longer available. The warranty period begins from the product's shipment date plus a distribution allowance. SmartNet contracts can be renewed for 1 . A. It does not address issues relating to the operational support needs of devices or systems. To take advantage of our warranty related information and updates, we encourage you to register your products through our Palo Alto Networks Support Portal (<https://support>. Technical Support: Limited. Unless stated otherwise, Juniper Networks warrants that for a period of one (1) year from the Start Date, the Juniper Networks hardware purchased by customer ("Hardware") shall be free of defects in material and workmanship under normal authorized use consistent with the product instructions. Every device we sell undergoes a comprehensive 48-hour validation process, including 24 hours of incoming inspection and 24 hours of outgoing testing, to ensure reliability and deployment. This appliance provides details on the Network Security Appliance warranty programs. Forcepoint and its global network of partners stand with you to make sure your network connectivity and security infrastructure works the way you expect it to.
