

Is China Netcom just fiber optic cable

Overview

China Netcom (CNC) prioritized the development of its CNCNet IP backbone network, leveraging fiber optic technology to deliver high-speed Internet and data services across China. China Netcom is one of six licensed facilities-based operators in China, and aims to set itself up as a new generation IP carrier to compete against China Telecom. China Netcom, full name China Netcom Group Corporation (Hong Kong) Limited (former stock codes: HKEX:0906, NYSE:CN), abbreviated CNC, was a telecommunication service provider in People's Republic of China. It was formed in August 1999 by the Chinese government to enable inward investments to build.

BEIJING □ The growing availability and declining price of bandwidth here is prompting companies like China Netcom to launch the nation's first broadband network using Internet Protocol-over-dense wave-division multiplexing (DWDM) technology. The 40-Gbit/second network also demonstrates how. As a leader of telecom communications, O-Net provides wide range of products including micro optics components, passive and active production line. with constant technical progress, O-Net vertical integration capacity covers chips, devices, modules and subsystems, so as to satisfy different customer. CORNING, N. announced that China Netcom Corp. (CNC) has selected Corning as its principal optical fiber supplier. Corning will supply more than 500,000 km of LEAF optical fiber over the next three years as part of a long-term supply agreement with the China. Optical Fiber, Communication Cable from China Manufacturers - Shenzhen Netcom Technology Co. Transport Package: 3mm X 40mm Stainless Steel Tube. Specification: 1x2,1x3,1x4,1x5,2x2.
