

# Mine Safety Certified Distribution Box

## Overview

This unit is ATEX & IECEx certified, supporting global safety standards for explosive gas and dust atmospheres. Available in 24V, 110V, and 220V configurations, it features IP66 protection, optional SY braided or rubber cables, and custom cable lengths (5 to 100 meters). The Huarong WAROM Mine Intrinsically Safe Circuit Distribution Box JHH2-6 (B) is a high-performance electrical safety device designed to ensure safe and reliable distribution of power in hazardous mining environments. Designed to meet strict safety standards, this circuit distribution box is intrinsically safe. Mulan Group delivers rugged, ATEX-certified electrical enclosures custom-built for mining operations. OEM/ODM support from design to compliance. Why. Current estimates place the market value at approximately USD 2.5 billion, with projections indicating a compound annual growth rate (CAGR) of 6. Manufacture custom made Local Control Stations & Distribution Boxes, local control panel boards and stations, explosion protected control units, distribution. The product list with the heading "List of Suitable Thermal Barriers" and "These materials are considered 'noncombustible material' as defined by 30CFR Part 75. 301" dated 08/1/08, has been removed.
