

Norwegian fiber optic hybrid cable 4 cores

Overview

This cable is constructed with 3 core 2. 5mm² copper conductor cable & 4 Core fibre cable with LSZH /PE jacket for internal/external applications. Norden Hybrid Cable has copper and fibre connectivity in a single cable to safely deliver low-voltage power and data over long distances to remote locations where standard power is unavailable or too costly to install. One cable | Smart cable solutions. CommScope bundles hybrid cabling to your custom specifications, using our high-performance fiber-optic, unshielded twisted pair and coaxial cables. Small jumper cable for single radio can consist of two wires for power supply and 1-3 fiber pairs for data, according to radio design. We at Norsk Fiberoptikk help customers find the most suitable cable for the right area of use. Fiber connectivity engineered for shock, vibration, temperature extremes, and demanding field.
