

Panama Thermal Passage Flame Retardant

Overview

The polyester white base achieves vibrant printed colours. This high-grade fabric is certified to flame retardant (FR) standards. All inks meet Oeko-tex requirements and pass EN71-3 certification. Fabric with high tensile strength and tear resistance, mainly used for structures, tensile structures and textile architecture thanks to the protective PVDF type E lacquering. It is also characterised by high resistance to weathering and wear. Panama FR is extremely hard wearing and popular for bags and home interiors such as curtains and cushions. Half. 6Wresearch actively monitors the Panama Flame Retardant Thermoplastics Market and publishes its comprehensive annual report, highlighting emerging trends, growth drivers, revenue analysis, and forecast outlook. Our insights help businesses to make data-backed strategic decisions with ongoing market. Textured & Super Compact Fire Retardant Panama Trevira.
