

Quick Cabling in Cable Trays

Overview

Quick connect systems are designed to reduce installation time and simplify cable tray assembly. Connecting cable trays correctly is essential for system safety, load stability, and long-term performance. Choosing the right one depends on project conditions, load, and environment. Cablofil® is a welded wire-mesh cable management system made of high-strength steel wire. The selection of material and finish is a function of the environment in which it is used. OBO BETTERMANN has offered products and solutions for electrical installation for over 100 years. With our many years of experience, we are one of the leading manufacturers in this field. The Ladder Tray features light, rugged, tubular steel construction. It is designed for quick installation. Constructed from high-quality welded steel wire, Cablofil® Wire Mesh Cable Tray is the result of decades of research and over 94,000 miles of installed tray across the globe.
