

Spanish Micro-Module Source Factory

Overview

With an investment of €20 million and the creation of 115 jobs, the first large photovoltaic module manufacturing plant in Spain and one of the first on an industrial scale in Europe will be located in Langreo (Asturias). The factory will come into operation this year. MicroNanoSpain is the Spanish semiconductor competence centre, connecting talent, technology, and industry to drive innovation across Europe. Their strategic production centers in Europe and Asia support their commitment to providing comprehensive solutions. Netherlands-based MCPV, a silicon heterojunction PV manufacturer, is planning to build a GW-sized PV panel factory in Tudela, Navarra, Spain. A rendering of the MCPV cell plant in Veendam, Netherlands. An IP typically consists of description of high-level simulatable hardware, firmware, and software, as. PERTE Chip investments are an exceptional opportunity to strengthen the Spanish ecosystem, where there are no large semiconductor factories and it is interesting to attract high-tech companies and boost scientific, innovative and training capacity.

Article Content

Top 6 photovoltaic module companies in Spain in 2025

In this article, the top 6 photovoltaic module companies in Spain in 2025 will be introduced, from basic information to latest news about these

S& P Global Spain Manufacturing PMI

"March's PMI survey provided a whole host of positive news with regards to the Spanish manufacturing sector. An improvement in Spain's domestic performance has been encouraging to

Iberdrola and Exiom receive the first shipment of

Iberdrola and the Asturian business group Exiom continue their steps towards the materialisation of the project announced at the beginning of the year

Fraunhofer ISE reveals Spain may host 5 GW module

Germany's Fraunhofer Institute for Solar Energy Systems (ISE) has revealed that the Spanish startup Greenland intends to set up a 5 GW vertically

List of semiconductor fabrication plants

Semiconductor fabrication plants are factories where integrated circuits (ICs), also known as microchips, are manufactured. They are either operated by Integrated Device Manufacturers (IDMs) that design

MCPV gets state grant for 2.5-GW solar module factory

Dutch solar technology company MCPV has received a EUR-10-million (USD 11m) state grant to advance the development of a 2.5-GW solar

Broadcom's Spanish Expansion

Broadcom, the chip giant, has unveiled ambitious plans to establish a wafer processing factory in Spain, potentially generating 500 job opportunities and injecting a staggering \$1 billion (€920 million)

Spanish Semiconductor Competence Centre

MicroNanoSpain is the Spanish semiconductor competence centre, connecting talent, technology, and industry to drive innovation across Europe.

MCPV secures €10 million grant for 2.5 GW solar module factory in Spain

Netherlands-based MCPV, a silicon heterojunction PV manufacturer, is planning to build a GW-sized PV panel factory in Tudela, Navarra, Spain.

MCPV secures €10 million grant for 2.5 GW solar

Netherlands-based MCPV, a silicon heterojunction PV manufacturer, is planning to build a GW-sized PV panel factory in Tudela, Navarra, Spain.

100 companies for Semiconductor Manufacturing in Spain

Discover all relevant Semiconductor Manufacturing Companies in Spain, including DigiProces | EMS and Alter Technology

A unique opportunity to strengthen the Spanish chip ecosystem

PERTE Chip investments are an exceptional opportunity to strengthen the Spanish ecosystem, where there are no large semiconductor factories and it is interesting to attract high-tech companies and

We form an alliance with Asturian company Exiom to lead the

With an investment of €20 million and the creation of 115 jobs, the first large photovoltaic module manufacturing plant in Spain and one of the first on an industrial scale in Europe will be

Top Semiconductor Companies In Spain

Browse 14 Semiconductor companies in Spain, including 13 with websites, 12 with employee estimates, 14 with contact signals. Featured companies include Eranovum, Fyla, Kdpof.

UMG-Si production factory at Puertollano (Spain).

A new factory is currently being built in Puertollano (Spain) with a capacity of 3000 t/year (Figure 3).

100 Top Manufacturing Companies in Spain · May 2026 | F6S

Detailed info and reviews on 100 top Manufacturing companies and startups in Spain in 2026. Get the latest updates on their products, jobs, funding, investors, founders and more.

Mapping of the Spanish Microelectronics Ecosystem

Spain has therefore launched the Strategic Project for the Economic Recovery and Transformation of Microelectronics and Semiconductors (abbreviated to PERTE Chip) which will entail a public
