

# Uruguay Bridge Project

## Overview

Plans are now in place for a new bridge that will link Uruguay and Argentina. The project will be carried out by Chinese contractor China Dalian International Cooperation Group (CDIG). The Laguna Garzón Bridge is a bridge crossing the Laguna Garzón in Uruguay, on the border between the Maldonado and Rocha departments. The bridge is famous for its unusual circular shape and was designed by Uruguayan architect Rafael Viñoly. The private agreement signed by CDIG will see the firm constructing a bridge connecting Colonia del Sacramento in. The bridge's unusual circular road deck slow traffic and allows drivers, pedestrians, and cyclists to appreciate panoramic views to one of the most beautiful and pristine coastal landscapes in Uruguay. Eduardo Costantini, Las Garzas developer, invested around U\$D 10 million in its construction. It is an iconic architectural. CAF will provide non-reimbursable funds of up to USD 950,000 from the Pre-Investment Program in Infrastructure to conduct technical studies, environmental and social assessments for the construction of the International Bridge over the Uruguay River between Monte Caseros (Argentina) and Bella Unión. In Uruguay's breathtaking coastal landscape, the Laguna Garzón Bridge stands as a revolutionary model of infrastructure that harmonizes human innovation with environmental stewardship.
