

What is an ALSW distribution box

Overview

The ALSW provides incredible versatility with its control capabilities (built-in aux receptacle) and includes an adjustable universal arm in the box that can be mounted to 4" or 5" round or square poles, slipfit over a 2-3/8" tenon or be wall-mounted. The ALSW Series universal switchable area luminaire offers performance and durability with a sleek one-piece die-cast aluminum and high efficacy of up to 160 lumens per watt. It not only features field switchable power (14,500 to 49,000 lumens) and CCT (3000K-4000K-5000K) it also allows for field. A distribution box, also known as a distribution board, electrical panel, or breaker box, is an enclosure that houses electrical components responsible for distributing electricity throughout a building. From power and signal distribution to I&C applications and complete room solutions - we have just what you need. Today, electrical systems are essential for homes and industries. These boxes house various circuit breakers.
